Re: COVID-19 HOME TEST KITS

Dear <Kentucky Medicaid Member>,

The Department for Kentucky Medicaid Services now covers all FDA approved home COVID-19 tests. You can now go to your pharmacy and obtain a test without a prescription. A maximum of eight tests per member every 30 days will be allowed at no charge to you. If you purchased a test from your pharmacy on or after **1/15/2022**, you may go back to your pharmacy for reimbursement (pending proper documentation – i.e., receipt of purchase).

If you have questions, please call MedImpact at 800-210-7628, or visit the website at <https://kyportal.medimpact.com>
